

A person in a dark suit is shown from the chest up, holding a tablet computer. The person's right hand is pointing at the screen, and their left hand is holding the bottom edge of the tablet. The tablet screen displays a website with a large video player, text, and several images. The background is a blurred office desk with a pen and some papers. The entire image is overlaid with a semi-transparent dark grey filter. A white diagonal shape cuts across the bottom-left corner of the image.

Knowall Case Study

Colebrook Bosson Saunders

Colebrook Bosson Saunders are designers, manufacturers and worldwide distributors of award winning ergonomic office furniture accessories.

Colebrook Bosson Saunders' developments such as the original Wishbone flat screen swing arm and Zorro LCD monitor mount are prime examples of their design-led approach that has ensured that they remain market leaders in the office furniture industry.

Colebrook Bosson Saunders is a truly international company with branches in London, New York, Paris and Hong Kong. They are heavily IT dependant and demand a lot from their IT infrastructure for their VOIP, Data sharing and Terminal Services for their remote users.

Years ago CBS were looking for a reliable and reputable IT company to help them with their rapid expansion into the international market. They needed a company that could provide worldwide WAN services, manage their Databases, provide contractual labour and support and procure quality and reliable hardware and software for their business.

Knowall fitted their requirements like a glove, our experience in building and maintaining Wide Area Networks for multinational companies as well as our depth of available skills was exactly what CBS were looking for.

Over the past 4 years Knowall have provided the following services for CBS:

- Labour and Support
- Database Management
- Disaster Recovery Management
- Worldwide connectivity
- It equipment procurement
- WAN Management
